Acura typically uses a timing belt on models that are equipped with the V6 engine, such as the MDX, while vehicles with the 4-cylinder engine frequently use a timing chain. A timing chain does not need to be replaced, but in rare instances there can be a failure. It's important to check for wear because when a chain does break, it can cause catastrophic damage. Not sure what to look for when it comes to your timing belt?

## **How to Know When to Replace Your Timing Belt**

When asking does my Acura have a timing belt or timing chain, you should keep in mind that the major advantage of chains is that they are incredibly strong. While it may be reasonable to replace the chain at one point, as per the advice of a mechanic, this type of component is made to last throughout the entire useful life of the vehicle.
