Chapter 5 -Paper machine white-water systems and the paper machine wet end
5-1 Background and historical review
5-1-1 The invention of paper
5-1-2 Early mechanized papermaking
5-1-3 Parts of a typical paper machine
5-2 Technological aspects of sheet forming
5-2-1 How the volume of stock in a paper machine system affects process control

Advances in Papermaking Wet End Chemistry Application

Where To Download Applications Of Wet End Paper Chemistry By Thorn Ian Author 2009 Hardcover

Starch has been used in papermaking almost since the invention of paper. The global paper industry consumes almost 5 million tonnes of starch per year, making starch the third most important raw material in papermaking. Roughly 20% of this is used in the wet-end. Cationic starch is the major wet-end starch.
