Brake Repair Manuals | Discs, Drums and More

The first thing you will want to do is make some small adjustments. With time, parking brake systems tend to wear. A parking brake system is made with a bunch of pulleys and cables. These cables will and do stretch over time. First, check your service manual to make sure you are making the adjustments correctly.

Parking Brake Repair: A How-To Guide | DoItYourself.com

Modern braking systems typically are self-adjusting to ensure that the brake pad maintains constant contact with the braking surface on a rotor or drum when the brakes are applied. Older brakes may...
