The Robert E. Reed Gastrointestinal Oncology Research Foundation (The Reed Foundation) was formed in 2002 while Robert Reed was battling pancreatic cancer. Mr. Reed felt strongly that creating a focus on GI cancer research and patient care would accelerate discovery of a cure. Since its inception, the Foundation has significantly raised awareness and understanding about all gastrointestinal cancers.

Physical metallurgy principles by Robert E Reed-Hill - Alibris

Robert E. Reed-Hill. THE FIRST EDITION In recent years, introductory physical metallurgy textbooks have attempted to achieve three goals: to explain basic metallurgical phenomena, to identify the compositions and properties of commercial alloys, and to teach principles of metal fabrication. Because all three phases are generally covered in a single course of one or two semesters, none of them receives adequate treatment.
