Economics Paul A Samuelson

Paul Anthony Samuelson (May 15, 1915 - December 13, 2009) was an American economist. The first American to win the Nobel Memorial Prize in Economic Sciences , the Swedish Royal Academies stated, when awarding the prize in 1970, that he "has done more than any other contemporary economist to raise the level of scientific analysis in economic theory". [4]

Paul Samuelson - Wikipedia

Samuelson has noted that economists (like Galbraith) who write too well may be suspect by other economists, but this is an unfortunate viewpoint. The best writing is done by the clearest thinkers: Einstein (in both German and English), Feynman, V.I. Arnol'd, and Fischer Black are examples. Bad writing, in contrast, often reflects sloppy thinking.
