Research on environmental crime and corruption tends to focus dumping and illegal transport of hazardous waste. on illegal logging as opposed to other types of environmental crime such as illegal trafficking in ozone depleting substances and hazardous waste.

Environmental crime and corruption

From EIA's perspective, corruption is a key enabling factor in environmental crime, especially the theft of natural resources. Research has shown that the more affected it is by corruption, the poorer a country's environmental performance – a theoretical link borne out by the findings of many EIA field investigations

How corruption is poisoning the global environment - EIA

Indeed, corruption as a tool for environmental crime—particularly used by organised criminal groups—has grown in recent years. Perpetrators are motivated by large profits that may be obtained from exploitation and illegal trade of natural resources.

CORRUPTION, ENVIRONMENT AND THE UNITED NATIONS CONVENTION ...

Indeed, environmental crime often occurs hand in hand with other offences such as passport fraud, corruption, money laundering and even murder. Unlike the illegal trade in drugs and other illicit goods, natural resources are finite and cannot be replenished in a lab. As such, there is a sense of urgency to combat environmental crime.
