### Homemade and Raw Cat Food Diets: Recipes, Benefits, and More

A wild cat's diet is based on meat and fish, although it's true that they also receive certain amounts of vegetables through their prey. This explains why the best diet for domestic cats should contain 40% protein and 26% fat.

### What is the Best Diet for Cats? - Animal Wised

Cats don't actually need vegetables and carbohydrates in their diets. In fact, they can only tolerate carbohydrates in small amounts. Instead, cats thrive on high-protein, high-moisture diets that are rich in substances only found in meat. This includes amino acids such as taurine, fatty acids, and other essential vitamins and minerals.

### Should You Feed Your Cat a Raw Diet?

Cats naturally eat several small meals per day. Make sure you feed your cat every day and try to split their daily intake into several small meals (unless advised otherwise by your vet). How much your cat needs to eat depends on their age, lifestyle and health. Always read and follow the feeding instructions that relate to the cat food you buy.

Dry kibble tends to be loaded with carbohydrates and plant based proteins. Worse, it is often contaminated by bacteria, fungal mycotoxins and even vermin and their excretions. You want better nutrition for your cat. Dry food also does not have a high enough moisture content for cats.

### 10 Homemade Cat Food Recipes That Are Healthy!

In addition to natural dietary changes, Raines says diabetic cats may also benefit from a cranberry-based urinary supplement since "diabetic cats can be at a higher risk for bladder infections." When searching for a natural urinary supplement, look for companies that perform independent testing and for products that have the GMP (Good Manufacturing Practices) label.

### Natural Ways to Manage Diabetes in Cats | PetMD

Cats cannot synthesize some essential nutrients required for survival, including the amino acids taurine and arginine, so these nutrients must be

sourced from fresh meat in the natural diet. Cats lack the specific physiology to extract nutrients efficiently from plant-based materials, and require a high protein diet, which is why high-energy meats from freshly killed prey are optimal foods.

**Cat food - Wikipedia**

Feed your cat cooked poultry. Were they living in the wild, animal meats would be the staple of cats' diets, and they are one of the best natural foods that you can serve your cat. Cats will eat nearly all types of meat, including beef and pork. However, cooked poultry (chicken or turkey) is best for your cat.
