In fact, since the inception of hedge funds, Treasury bills have outperformed them. Hedge fund accounting can mislead in myriad ways. For example, say an investor puts money in a hedge fund and it goes up 50% in the first year.

The Hedge Fund Mirage Free Summary by Simon Lack

It is one of the financial world's strangest anomalies that there are neither regulatory nor legal definitions of what constitutes a hedge fund. The very term "hedge" can be somewhat misleading as although the traditional hedge fund is indeed comprised of investments that are "hedged", that is not necessarily the case today.
